

JAMES H. WHEELER AND EIE LAMBDA, LLC, BRIDGES ON THE RIVER RESTAURANT, Sacramento County

The Bridges on the River Restaurant is on Garden Highway near Interstate 80 in northwestern Sacramento County. Domestic wastewater from the restrooms and janitorial/kitchen facilities will be discharged to an on-site package treatment plant that will provide secondary aerobic treatment, clarification, and ozone disinfection by batch sequencing. Disinfected effluent will be further treated by pressure filtration and reverse osmosis prior to discharge to either of two shallow groundwater injection wells. Total daily influent flows are estimated to be no more than 5,000 gpd. Water for the restaurant will be supplied by an on-site well approximately 220 feet from the wastewater injection wells. Surface water drainage is to the Sacramento River. (ALO)
